Thursday mornings MRes project progress report

PokMan Ho

Date Time:	02-Jul-2020 09:00
Location:	MS Teams
People:	James, Samraat, PokMan

1 Topics discussed

1. hypothesis wordings (hypothesis 1 & 2)

2. boxplot comparison fairness (sample size issue)

2 Consensus

1. hypotheses should have stronger rationale paragraph; aim at high readability at readers' first glance

2. would frame hypotheses as questions

3. frame terminology better

4. hypothesis 2: find a system more closer resemble to my model system; current one describe as "analogy"

5. think about biological reason of adding bacteria = higher yield (after fair comparison done)
